PROFESSIONAL SUMMARY

Results-oriented **Application Support Engineer** with **4 years of professional experience** at HCL Technologies. Expertise in lead support for PS Web-Medical Enrollment modules, server patching, and BOMA script automation. Highly proficient in ServiceNow for Incident and Change Management, ensuring seamless enterprise application operations and high system availability.

WORK EXPERIENCE

Software Engineer (Application Support)

2022 – Present

HCL Technologies | Madurai, India

- **Lead Support:** Managed 6 enterprise applications as the lead for PS Web-Medical Enrollment module.
- **Server Maintenance:** Performed server patching, system restarts, and routine environment maintenance across client systems.
- **Automation:** Developed and executed BOMA scripts to automate repetitive tasks and improve operational efficiency.
- **Identity Access:** Resolved access and login issues using Adam Web, ensuring secure and timely user support.
- **Financial Support:** Facilitated VCC transitions and resolved finance-related claim discrepancies.
- **ITSM:** Processed and resolved service issues (IR, CR, SR) using ServiceNow ticketing tools.

Graduate Engineer Trainee

2021 – 2022

HCL Technologies | Madurai, India

- Provided technical and process support during onboarding and early-stage application usage.
- Utilized VNC Viewer for remote troubleshooting and monitoring of end-user systems.
- Collaborated with vendors for hardware issues, including printer support via GPS vendor platform and fax monitoring.
