PROFESSIONAL SUMMARY

Results-oriented **Application Support Engineer** with **4 years of professional experience** at HCL Technologies. Proven expertise in managing enterprise applications, server patching, and automating workflows through BOMA scripting. Highly skilled in Incident, Change, and Service Request handling using ServiceNow to ensure minimal downtime and high system availability.

WORK EXPERIENCE

Software Engineer (Application Support)

2021 – Present

HCL Technologies | Madurai, India

- **Module Leadership:** Serving as the lead for PS Web-Medical Enrollment module, managing 6 critical enterprise applications.
- **System Maintenance:** Execute routine server patching, system restarts, and routine maintenance across client environments.
- **Automation:** Developed and executed BOMA scripts to automate repetitive tasks and improve operational efficiency.
- **Access Provisioning:** Resolved access and login issues using Adam Web, ensuring secure and timely user support.
- **Financial Support:** Facilitated VCC (Virtual Credit Card) transitions and addressed finance-related claim discrepancies.
- **Incident Management:** Processed and resolved service issues (IR, CR, SR) using ServiceNow ticketing tools.
- **Onboarding & Remote Support:** Provided technical support during user onboarding and utilized VNC Viewer for remote troubleshooting.
- **Reporting:** Prepare and present weekly operational reports to directors and senior management.
